REMINDER NOTICE ON SIZE AND DOUBLE URN BURIALS IN A COLUMBARIUM NICHE

As noted in our contract paperwork and Policy and Procedures Manual for the Queen of Heaven Cemetery, the existing columbarium niches are designed and capable of providing a dignified resting place for two (2) urns of cremated remains.

With this in mind however, as a reminder, pre-planning is crucial and needed by the columbarium niche deed holder(s) and the funeral home (if/when a double burial is desired) when choosing the size of the burial urn/container.

The dimensions of our columbarium niches are approximately:

\[ 10 \frac{1}{2} \text{ inches (tall)} \times 11 \text{ inches (wide)} \times 11 \text{ inches (depth)}. \]

This reminder notice is to preclude any unfortunate last minute (i.e., at time of need or burial) discovery that the selected urns will not properly fit (either alone or together) within the columbarium niche space.

Thank you for your time and kind attention to this important matter.
